AiCR

STOP REKEYING INCOME DATA.

START SIMPLIFYING INCOME CALCULATION.

TruIncome brings income documents, calculations, and supporting information into one workflow, helping your team move from loan file to completed income worksheet with a documented calculation trail.

LESS TIME REKEYING

Reduce the manual work of pulling income information from multiple documents and entering it into spreadsheets.

KEEP THE CALCULATION TOGETHER

Give your team a clear record of how the final income calculation was reached, with the supporting information kept together.

A MORE CONSISTENT WORKFLOW

Make it easier to work through different income documents and calculation scenarios in one workflow.

Move from document review to a completed income calculation without jumping between the loan file, individual documents, and disconnected spreadsheets.

BUILT FOR THE INCOME SCENARIOS YOUR TEAM ALREADY HANDLES

W-2s, Pay Stubs, Verification of income, Bank statements, profit/loss data, Tax returns, 1099 income, Military and teacher pay, Rental property leases, and Schedule C/E.

Bring Your Income Calculation In-House

See how AiCR can help your team simplify the income calculation process and keep the calculation trail together.
